

Sustainability Report

2018

Rainier Guest ServicesSM

ENVIRONMENTAL
STEWARDSHIP
Rainier Guest ServicesSM

At Rainier Guest Services, LLC our mission is to provide quality products and services to our guests and visitors in a manner which preserves the environment.

The following is a quick glimpse at our accomplishments for 2018

- Over 65,000 pounds of commingle recycling was diverted from the landfill.
- 464 gallons of cooking oil was recycled by turning it into Biodiesel
- 83 pounds of ink cartridges were recycled
- 103 pounds of batteries were recycled
- 76 pounds of fluorescent light bulbs were recycled

- 10,260 pounds of food scraps were composted
- 3,550 pounds of scrap metal was recycled.
- 114 pounds of used electronic equipment was recycled.
- Over 27% of total waste was diverted or recycled in 2018

Water Hydration Stations

In 2015 we finished installation of 3 hydration stations in 3 different locations

- In 2018 over 66,000 bottles were filled at the stations
- Disposable water bottles were not sold in 2018.

Water bottles available for sale in guest rooms encourage our guests to use our bottle filling stations in lieu of disposable bottles.

Propane Vehicles

In 2015 we replaced 4 of our transportation vans and one maintenance truck with LPG operated vehicles. In 2018 and 2019, five more propane vehicles were purchased completing the conversion of our fleet to propane.

- Propane burns cleaner than gasoline or diesel
- Emissions were reduced by approximately 20,500 pounds of CO₂

Energy Management in Rooms

In 2018 we installed energy management devices in guest rooms for electric heat and lighting.

These devices keep the heat on a schedule and turn off lights when not in use.

Conserving our Resources

In 2018 our towel and linen reuse cards were re-created with our own water saving statistics and encourage guests to participate.

Also in 2018, our reusable retail bags were re-created with 3 unique designs and conservation messaging on protecting the earth, air and water.
