

Sustainability Report

2020

Rainier Guest Services™

ENVIRONMENTAL
STEWARDSHIP

Rainier Guest Services™

At Rainier Guest Services, LLC our mission is to provide quality products and services to our guests and visitors in a manner which preserves the environment.

The following is a quick glimpse at our accomplishments for 2020

- Over 24,800 pounds of commingle recycling was diverted from the landfill.
- 825 gallons of cooking oil was recycled by turning it into Biodiesel
- 28 pounds of ink cartridges were recycled
- 52 pounds of batteries were recycled
- 49 pounds of fluorescent light bulbs were recycled
- Over 22% of total waste was diverted or recycled in 2020

Propane Vehicles

In 2015 we replaced 4 of our transportation vans and one maintenance truck with LPG operated vehicles. In 2019, five more propane vehicles were purchased completing the conversion of our fleet to propane.

- Propane burns cleaner than gasoline or diesel
- Emissions were reduced by approximately 20,500 pounds of CO₂

Energy Management in Rooms

In 2018 we installed energy management devices in guest rooms for electric heat and lighting.

These devices keep the heat on a schedule and turn off lights when not in use.

Conserving our Resources

In 2018 our towel and linen reuse cards were re-created with our own water saving statistics and encourage guests to participate.

Also in 2018, our reusable retail bags were re-created with 3 unique designs and conservation messaging on protecting the earth, air and water.
